

Science Instruction Like Never Before Engage Your Students with PAVO®

PAVO by Flinn Scientific combines **standards-compliant** content with high quality **hands-on kits** designed for today's changing learning environments. PAVO's comprehensive platform gives you the power to meet differentiation needs, integrate hybrid learning, and engage students, while **improving overall outcomes**.

Our dynamic content gives you the flexibility to choose activities that will **engage and excite your students** and meet specific learning objectives from intro levels to Advanced Placement prep and more.

Comprehensive digital resources
+ Engaging hands-on-learning
One convenient platform for managing both.

Optimize Your Science Classroom

- Aligned to essential NGSS standards and built to support instructional best practices.
- Promotes science learning through hands-on learning.
- Includes customizable instructions, lessons, labs, and more.
- Designed with differentiation in mind, so teachers can easily adapt the content to meet the needs of their students.
- Embedded formative assessments and data analytics makes on-the-fly instructional adjustments simple.

Easy Adoption and Just-in-Time Support

PAVO gives teachers tools they need to integrate digital and hands-on learning, facilitate inquiry-based exploration, differentiate instruction, and access labs, embedded safety resources, test prep, formative and summative assessment, and multi-level reporting in a single solution.

Customized implementation is designed around your needs, timelines and benchmarks. Learn more at flinnpavo.com

From Reputation to Innovation

For more than four decades, Flinn Scientific has been a trusted partner of science education professionals, and your best source for quality supplies, instructional tools and essential safety instruction.

Building on that solid foundation, we worked together to create PAVO, an award winning comprehensive and digitally-enhanced platform that engages students through hands-on learning across the spectrum of science-focused subject areas.

Try it next semester and see for yourself

- Start your trial this summer or winter.
- Register now for your free trial for Fall 2022 and receive full access to discipline-specific content from any of our digital solutions for grades 9-12+
- Simply select the discipline you'd like to try (one teacher email per discipline) and add to your Flinn cart.
